

OUR MISSION

Here at Atlantic, we've been making legends since 1947. Started by music fans and record enthusiasts, we strive to give every one of our artists a different creative approach, while preserving the individuality and original ideas of the artist and their community.

OUR LEGENDARY ARTISTS & HISTORY

From representing superstars like Queen, Metallica, and Led Zeppelin, to representing the new class of greats, including Bruno Mars, Gucci Mane, and Ed Sheeran. Atlantic records has always been known for its insanely varied and talented lineup, and hopefully you'll be the next artist to join these historic ranks.

Album art from the historic album, IV by Led Zeppelin

Along with topping the charts our artists have brought home tons of Grammy's, AMA's, and much more. Our most recent example includes Bruno Mars taking home six Grammy's just this year! Those are just few of the many accolades of Atlantic Artists, in every genre, from soul to heavy metal to pop and more.

OUR STUDIOS AND FACILITIES

A photo of our live room at Atlantic Studios NYC - Featuring Great Equipment from DW Drums, Fender guitars, and much more.

Due to our history and size, we have many offices and facilities around the United States and internationally. Our label is a subsidiary of Warner Music Group as well. This gives our artists even more access to studios and offices worldwide.

As well as facilities we have some of the best staff in every department, especially Law, A&R, and Publicity, and audio engineering

Even though we are based in New York City, right off of Times Square, we have sister offices in many major cities including Miami, Atlanta, Nashville, Los Angeles, and more.

Most of our offices have state-of-the-art studios in the building, with fantastic equipment available for use at pretty much any time for our artists. All you need to bring is yourself and your creative mind.
